Only large farms are economic and because of this most British farms are big. They usually grow cereals in the east of England and raise sheep and cows in the north of England and Scotland. The small family farms often have to earn more money by offering bed and breakfast accommodation to tourists.

Farming methods in Britain have also changed. Fields used to be quite small, divided by hedges which were sometimes a thousand years old and full of wild flowers and birds. Many hedges were pulled up to allow farmers to use modern machinery. Now most fields in England are large by European standards.

Suggestion:

In Vietnam, we don't celebrate Father's Day, so I think it is necessary to have a day for our dad. Father's Day is the occasion for children to express their feelings, memories and love for their father. Moreover the celebration helps enhance the family traditions and bring the family members to be closer. I think we should celebrate Father's Day on the second Sunday of July. Because the weather is fine and almost all people don't have to go to work or school. People who live apart can return home easily. On these days, we should have a party, clean and decorate our parents' rooms and give them some sweetheart gifts. We don't need to buy some expensive things because they can understand our love. Travelling around the country together is a good idea. We should make a cake and give them best wishes. Therefore, we should celebrate Father's Day because they are big presents for our father and they will love us more. I hope it will be celebrated nationwide and most people will join it.
